Naturally Alberta: A New Brand

Naturally Alberta is a new brand developed in collaboration with our natural health product companies, highlighting Alberta's quality ingredients and production methods and Canada's global reputation for safe products. The brand was developed to support companies exporting products to Asia and China.

For more information on Naturally Alberta and guidelines for usage, please contact us.

See more info [here](#)

PMPRB Submission

BioAlberta remains opposed to both the process and content of Health Canada's PMPRB draft guidelines.

BioAlberta Talent Hub

Student Opportunities

BioAlberta is pleased to continue the Work Integrated Learning (WIL) Voucher program for the STEM and life sciences sector on behalf of the Ministry of Advanced Education. We are continuing to work with post-secondary institutions and employers to help students connect with new learning opportunities and on-the-job training.

View opportunities [here](#).

Member Benefits

BioAlberta members have access to BioTalent Canada's job board, The PetriDish. Members can post five FREE jobs annually.

FREDsense Portable Water Quality Test Kit Used to Reliably Detect Dissolved Arsenic Levels On- Site in Big-City Groundwater Wells

In a case study released recently, FREDsense shared that the FRED-Arsenic test kit measured in the low parts per billion range ($\mu\text{g/L}$) and has been used by utilities and consultants in California and Arizona. The study showed there are many groundwater wells and active arsenic remediation efforts with successful outcomes.
