About Medlior

At Medlior, we specialize in producing high-quality evidence to empower data-driven healthcare decisions across the product lifecycle.

Global focus with Canadian roots.

100% Canadian owned and staffed, Medlior brings a highly skilled team and proven experience to serve customers worldwide.

Strong partners and collaborators

Our robust relationships across the public, private and non-profit sectors, position us to develop meaningful solutions and drive impact.

Data access and analytics

Access to high-quality, comprehensive data sources and advanced analytics to generate the impactful insights and evidence to drive effective decision making.

Methodology expertise

With extensive experience in established and emerging health research areas, our team is positioned to successfully deliver solutions that address your needs.

Our Services

Real-World Evidence

Comprehensive, end-to-end support: from protocol development and data access to robust analysis and final reporting.

Advanced Analytics

Accelerating insights through AI-enabled, methodologically rigorous analytics tailored to complex health data.

Evidence Synthesis

Uncover key trends, quantify the evidence base, and identify critical research gaps to support strategic decision-making.

Rapid Insights™

Leverage our AI-powered literature reviews to rapidly generate high-quality evidence for value messaging and stakeholder engagement.

Evidence Strategy

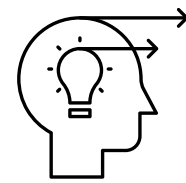

Develop compelling value propositions and conduct landscape assessments to guide adoption and inform payer strategies.

Medical Writing & Knowledge Translation

Clear, targeted communication for publications and evidence dissemination to support informed healthcare decisions.

Our Advantage

Innovative & Methodologically Rigorous

Using cutting-edge data analysis techniques, advanced statistical modeling, and robust study designs, we deliver reliable and impactful insights.

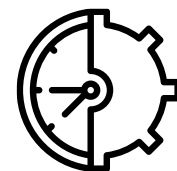

International Experience

Equipping your organization with the requisite knowledge to make informed decisions that balance improving health outcomes with healthcare costs.

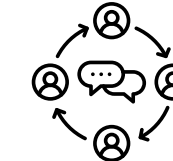

Proven Track Record

Our extensive experience in RWE ensures a comprehensive understanding of the research question, diverse perspectives on data analysis and data driven results.

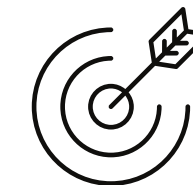

Efficient Quality

Employing streamlined, transparent processes to efficiently support evidence-based decisions through robust rigorous research methodology.

Effective Communication

Effective communication of complex findings to both technical and non-technical audiences to maximize the impact and value of the study.

Fit-for-Purpose Deliverables

An agile management approach and high-performance team to tackle each project uniquely, effortlessly adapting to meet market needs and expectations.

Let's explore how Medlior can accelerate
your market access strategy
