Message from the Minister of Health on Cancer Awareness

September is Cancer Awareness Month and a time to come together to support and honour Canadians impacted by this disease.

Awareness is important and continuing to invest in cancer research is critical.

Canadian researchers have made, and continue to make, significant contributions.

Experts Say U.S. Public Health Rollbacks Will Impact Canadians

Experts say U.S. public health funding cuts could have spillover effects in Canada, particularly in areas like vaccine access, infectious disease monitoring, and cross-border health collaboration. Canadian specialists note the importance of maintaining strong systems on both sides of the border to safeguard public health.

Space Tech, Human Impact

How can a technology developed for space help Canadians, even the ones who stay firmly planted on solid ground?

It may seem unlikely, since space technologies are typically tailored to specific environments, but one local company that began by designing products for space is now using that same technology to support remote communities across Canada.
