

Briefing you on everything **BioAlberta**

Welcome to the latest edition of **BioBrief**. In this issue, we're pleased to provide key updates, highlight upcoming events, introduce new members, and feature a BioAlberta member making notable contributions to the life sciences sector.

Stay informed and connected with Alberta's life sciences community.

Estimated Reading Time: 3 minutes

Member Spotlight

Qualisure Diagnostics is a Calgary-based precision oncology company redefining how molecular diagnostics are developed, deployed, and scaled. Founded by clinician-scientists and engineers, the company sits at the intersection of cancer biology, artificial intelligence, and health system implementation.

Welcome to our New Members

The name argenx comes from the ancient myth of the Argonauts – one of the first stories on record recognizing the power of the team rather than one hero. The Argonauts set out in a small boat on a wide ocean on a mission to find the golden fleece. This was a seemingly impossible task but thanks to the collective effort of the team and the unique contribution of each individual, the Argonauts were able to achieve the unthinkable.

Similar to the Argonauts, the people of argenx are on a challenging quest that can be successfully navigated through the power of collaboration – the quest to engineer life-changing immunology solutions.

At CSL Seqirus, we are driven by just one goal - to lessen the severity and impact of influenza, which can reach epidemic or even pandemic proportions with life-threatening consequences. Every year our influenza vaccines help protect millions of people. We find solutions to big, complex, challenging problems, and we see the results in the world around us. Then we do it all over again the following year.

 PARLEE McLAWS^{LLP}

Free IP Strategy Consultation for BioAlberta Members

Parlee McLaws is offering a free IP Strategy Consultation for BioAlberta members. These IP Strategy Consultations are designed to support business owners, innovators, and entrepreneurs in developing a clear and practical approach to their intellectual property.

Consultations are available for general IP matters, as well as focused sessions on patents, trademarks, or a combined patent and trademark strategy. These sessions provide tailored guidance to help you better understand your IP position, identify opportunities for protection, align your strategy with your business goals. They will provide you with an IP strategy cheat sheet to help you answer questions from investors and funders.

To learn more or book a consultation, please visit:
